Address: \_\_\_\_\_

**Subject:** Laastras project price

Dear Sir/Madam,

Our Laastras project is of global scope. We must admit there are several situations in your country that we must entirely leave in your hands. Hence, we have come to the decision that we ought to act as a Non-Governmental Organization the local branch of which is entirely sovereign. This is why we are going to let it under your regulation and oversight.

The document the link of which is at the foot of this letter is both the price of the project and the permit that we require of you in order to launch Laastras project inside your nation. The provided documents are enough to grasp our objectives and the impact that the project will have on your nation, your people, and the future of humankind to whom you wholly belong.

We are looking forward to a long-living partnership with your nation.
