AORI Policy

Our society has struggled to eradicate poverty, unemployment, hunger, and conflicts. Thorough study and analysis led us to conclude that we cannot win the battle without achieving unity and peace in every nation and globally. Laastras AORI ("Acquire or Integrate") is a plan devised to meet the challenges and constraints to unity and peace in every nation and worldwide while at the same time defeating poverty, unemployment, hunger, and conflicts.

The entire Laastras plan can be found at https://laastras.herokuapp.com

We basically go through two steps:

- ✓ **Integrate:** In every nation, we bring all commercial transactions into one unique management portal (AGAS). This will make it possible to hit the "Services Exchange" impact. It will also pave the way for the creation of "Virtual Currency" since all currency will be grouped outside the internal transaction realm.

- ✓ **Acquire:** Every enterprise in Laastras AORI portal can decide to fully migrate to Laastras by signing the AORI contract with us. We will briefly mention the AORI contract terms. The goal is to achieve Morshux ("Management of resources that support human existence") vision, which is the strategy to establish pure democracy. The details about pure democracy philosophy can be found in the book published at https://leanpub.com/World-Federal-Government-Constitution--Leadership-as-a-Service

Nationwide Provisions

Every business in the country must be a part of commercial associations the size of which must be decided by local empowered authorities. The authorities will decide whether a business is to affiliate an association or whether it can stand alone in order to consume Laastras AORI management services. If no policy exists, then Laastras AORI will decide on the terms of association through AORI contract.

AORI Contract Terms Succinctly

1. All commercial transactions of the enterprise signing the contract must go through Laastras AORI portal after the enterprise has communicated to Laastras AORI all the commercial transaction specifics supported by the enterprise. This is the Integrate part of AORI plan.

2. If interested or constrained by local governmental policy, the enterprise signing the contract must fully migrate to Laastras AORI organization or department by being its shareholder with all rights reserved to Laastras AORI organization or department, which include remunerating all employees with the right to all Laastras AORI services/goods and cash to cover the other expenses unmet by Laastras AORI.

Laastras AORI Department

Constraints

✓ One AGAS Cloud for the whole world. The cloud will eventually turn the global market into World Trade System. As stated above, we will then achieve our vision: Services Exchange and Virtual Currency. Morshux will be achieved by making all Morshux related services free, price value 0.

✓ One HoFi App Suite for every Major Human Individual (MHI) on earth. The other individual talents, existing and future, will use Virtual Currency through HoFi App suite.
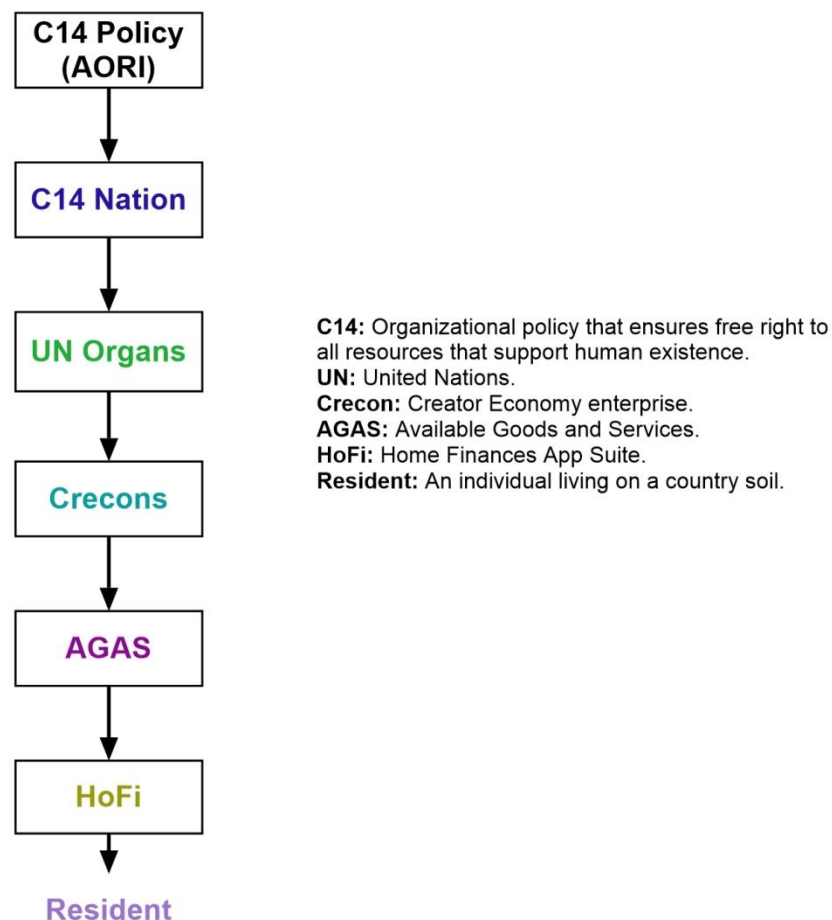

Thus, Laastras Vision will be accomplished in its entirety. For details on the vision, please, head to our online portfolio at https://laastras.herokuapp.com

Laastras AORI Service Logic Diagram

We devised AORI as a step by step protocol to get us to C_{14} policy given the status quo. Nations policy makers must start by grouping local businesses into legal containers (associations) that will make it easy for them to constitute C_{14} groups, that is, Self-Contained Personal Space (SCoPS). For details on the SCoPS philosophy, please read the book at https://leanpub.com/World-Federal-Government-Constitution--Leadership-as-a-Service

Laastras Organizational Diagram

Laastras has another number of services such as E-commerce, Logistics, etc. AORI stands out as a facility that consumes the other services but with the ultimate goal of achieving the organization vision completely. Our portfolio lists Laastras services and milestones that will get us to the bigger picture, that is, world federal government constitution (WoFeGoC), say, Laaszen (Leadership as a Service World Citizenship Nation). The portfolio can be looked up at https://laastras.herokuapp.com

The following is Laastras Organization Diagram.

Laastras Organizational Diagram

The following results will ensue:

- ✓ UN will serve as a bond of union amongst nations, a noble goal that she has striven to achieve ever since her creation after World War 2.
- ✓ Poverty and unemployment will be eradicated and conflicts will be solved properly and peacefully. Also, Democracy will be purified, ironing out its deficiencies.
- ✓ Lasting peace, world unity, and world citizenship for mankind.

Action Plan

As nations constitute C_{14} policy, that is, legalizing free right to all services/goods in Morshux, UN can be reorganizing their Organs in such a way that each Morshux group is headed by their equivalent UN Organ(s). UN must also see to it that Crecons, one per nation, are appointed. AGAS will then be a unified intermediary between Crecons and HoFi App Suite.
